- Java
- Python

PERSONAL STATEMENT

Computer Science Engineering student passionate about frontend development and modern web technologies. Experienced in developing responsive websites using React, HTML, CSS, and JavaScript. Quick learner with strong problem-solving skills, seeking opportunities to apply technical knowledge and grow as a Full Stack Developer.

PROJECTS

Personal Portfolio Website (React)

- Designed and developed a responsive personal portfolio using React, HTML, CSS, and JavaScript.
- Showcased technical skills, projects, education, resume, and contact information with a modern user interface.

Bank Management System (Java)

- Developed a desktop-based banking application using Java.
- Implemented features such as account creation, deposits, withdrawals, balance inquiry, and transaction management.

Tic Tac Toe Game

- Built an interactive Tic Tac Toe game using HTML, CSS, and JavaScript.
- Implemented game logic, winner detection, and a responsive user interface.

Image Gallery

- Created a responsive image gallery with an attractive layout and interactive image display using HTML, CSS, and JavaScript.

Mozilla Splash Page

- Designed a modern landing page inspired by Mozilla using HTML and CSS.
- Focused on responsive design, clean layouts, and user-friendly navigation.

Bouncing Ball Animation

- Developed a simple animation project using HTML, CSS, and JavaScript.
- Demonstrated JavaScript event handling, animations, and DOM manipulation.
